

The I-10 Corridor is a heavily-traversed traffic thoroughfare and our organization works to help people find all the reasons to veer “just a little off I-10” in their vacations and travels. All our activities are designed to bring people into the region for overnight stays and as a travel destination.

Our activities include directing people to our website, distributing our travel brochure around the area and state, highlighting our members, and the entertaining activities for people in the area.

### What you get from your Membership investment

This is an investment in your company and your hard work. Get your name and information out where people see it, with the opportunity to gain even more attention for your organization’s products, services and attractions with these MEMBER ONLY benefits.
